

Snug Harbor Resiliency Community Forum

Please Join Us!

Date: Thursday, November 7, 2019

Location: Duxbury Senior Center, 10 Mayflower St., Duxbury

Time: 6:30-8:00 PM

The Town of Duxbury is developing a **Snug Harbor Resiliency Plan** to inform for greater resilience to coastal flooding and sea level in the face of climate change. The plan will:

Provide immediate actions to mitigate the impact of climate change:

Provide an implementation plan for coordinated and immediate actions that can be undertaken by the Town and others to reduce risks and impacts for the district

Lay out long-term strategies for the district:

Provide strategies for longer term investments in infrastructure and property that will allow the district to thrive in the coming decades

Encourage economic development:

Provide recommendations to enhance economic development, retail activity, and arts and cultural vitality to enhance livability while integrating resiliency

Enhance transportation infrastructure:

Provide recommendations for the improvement of the everyday functionality and resilience of multi-modal circulation, walkability, and parking to enhance district access

Beautify the area:

Provide recommendations for the beautification and enhanced resilience of coastal parks, streets, streetscape, and other public realm or infrastructure systems
