Reference: Local Upgrade Approval and Local Regulation Variance Request for
Septic System Repair.
490 Chandler Street, Duxbury, MA

Dear Board Members:

On behalf of Karen Weatherbee (applicant), Collins Civil Engineering Group, Inc.
requests the following variances pursuant to the Duxbury Board of Health Regulations:

Local BOH Regulation Variance Requests:

1. Variance from the Duxbury Board of Health Regulations which require a minimum 150' setback from a wetland to a SAS. A variance allowing a reduction from 150' to 88' is requested.
2. Variance from the Duxbury Board of Health Regulations which requires a minimum 6' vertical separation between the high ground water elevation and the bottom of the soil absorption system with a percolation rate less than 2 minutes per inch. A local upgrade approval allowing a reduction from 6' to 5' is requested.

If I may be of any further assistance regarding this matter, please contact me at my office at the number above.

Sincerely,

George R. Collins, P.E.
Chief Engineer
