Attn: Board Members

Re: 44 River Lane
Assessors ref. # 117-151-000

Dear Board Members,

Enclosed are copies of the proposed irrigation well at the above property. The following variance is requested from the Duxbury Supplemental Regulations:

TOWN OF DUXBURY PRIVATE WELL REGULATIONS
SECTION 2.06 (3g) WELL LOCATION AND USE REQUIREMENTS

1. The proposed irrigation well is to be constructed 76.8' from a leaching facility. Duxbury requires a minimum of 100.0' for a private well for irrigation use only.

It is our professional opinion that this variance can be granted without compromising the level of environmental protection.

If you have any questions or comments please call us.

Sincerely,

Freeman Boynton, Jr.
