The Duxbury Planning Board, Planning Director, and a group of dedicated local “Master Plan Ambassadors” are working with the Metropolitan Area Planning Council (MAPC) to produce this plan. MAPC is the regional planning agency representing Duxbury and the 100 other cities and towns across Greater Boston.

During the course of the Envision Duxbury process, residents of all ages, business owners, elected and appointed representatives, and others in town are invited to weigh in on important issues facing Duxbury, including housing, arts & culture, open space, recreation, sustainability, development, transportation, infrastructure, and zoning.

The Town and MAPC will synthesize this community input and use it to develop a set of draft goals and strategies, along with specific action steps for implementing each one. After those recommendations are compiled, the full master plan draft with action items will be released for public comment. Once approved, Envision Duxbury will serve as the guiding planning document for the Town of Duxbury over the next 10 years. The project is slated to be complete in summer 2019.
