| Project 5 - Evergreen PFAS | | | | | Dark Blue | | Light Blue | |
| Project 6 - Lakeshore Mn and PFAS | | | | | | Dark Blue | | Light Blue |

Notes:

1. Dark blue indicates the estimated design, permitting, and bidding phases of each project. Light blue indicates the estimated construction phase of each project.
2. It is assumed that project funding is achieved through Town bonding or the State Revolving Fund.
3. Multiple projects are being constructed in order of priority due to funding limitations.
4. If a large bond or funding is received, performing one large organized treatment project at all locations could be considered.
