Attn: Board Members

Re: Repair of Subsurface Sewage Disposal System
25 Kingston Way
Assessors ref. #048-036-004

Dear Board Members,

Enclosed are copies of the repair plan for the disposal system at the above property. A list of the required local and state waivers is as follows:

TOWN OF DUXBURY SUPPLEMENTAL REGULATIONS

SECTION 1.10(1b) MINIMUM SETBACK DISTANCES

1. The proposed leaching field is to be constructed 122.7' from a potable well. Duxbury regulations require 150.0'.

It is our professional opinion that this variance can be granted without compromising the level of environmental protection.

If you have any questions or comments please call us.

Sincerely,

A handwritten signature in dark ink, appearing to read "Freeman Boynton, III".

Freeman Boynton, III
