

General Use Denitrification Certification

0 East Street – Duxbury, MA

Per the Massachusetts Department of Environmental (DEP) Certification for General Use for Denitrification dated March 20, 2015, the property owner is required to sign documentation that he/she has been provided with proper notification of the costs, fees, and requirements associated with the alternative treatment system designed for the property. Below please find these items listed.

As owner, I hereby certify that I:

- 1) Have been provided a copy of the DEP approval, the owner's manual and the O & M manual.
- 2) Have been informed that the approximate operating costs for the system include 225kw/month for the MicroFAST blower, Operation and Maintenance Agreement for the first year of approx. \$1,640.00 and second and subsequent years of approx. \$870.00; blower replacement cost of approximately \$670.00. The pricing above is current as of November 2020 and is subject to change based on current rates.
- 3) Understand I must have an Operation and Maintenance Agreement for the life of the system.
- 4) Agree to provide a deed notice as required by DEP and the approval.
- 5) Agree to provide written notification of the approval to any new owner.
- 6) Understand that the design must account for use of garbage grinders if one is to be used.
- 7) Understand that I may be required to repair, replace, modify or take any other action required by DEP or the local approving authority if they determine that the alternative system is not capable of meeting the performance standards.

Signed by owner
