A photograph of two firefighters in a multi-story building. One firefighter, wearing a helmet and a jacket with 'MIKKOLA' on the back, is leaning over a low wall. The other firefighter is standing next to him, holding a tool. The scene includes a large brick pillar and a balcony in the background.

3rd Fl height to floor 33 Feet

2nd Fl height to floor
18 feet

Accident

An **accident**, **mishap**, or, more archaically, **misadventure**, is an unforeseen and unplanned event or circumstance, often with lack of intention or necessity.

It usually implies a generally negative outcome which may have been avoided or prevented had circumstances leading up to the accident been recognized, and acted upon, prior to its occurrence.
